

**ENVIRONMENTAL, SAFETY AND OCCUPATIONAL HEALTH POLICY OF
MAPRIMED S.A.**

MAPRIMED S.A. is a company that develops and produces active ingredients for the pharmaceutical industry.

As one of the company's priorities is environmental protection and preservation, Maprimed is committed to protect the environment with the same interest and determination that it has in the quality of its products, as well as the safety and health of its employees and the community in which it operates.

This commitment involves:

- Operating in accordance with the environmental, safety and occupational health laws in force; and complying with other international or corporate regulations which the company may deem appropriate
- Designing the operative control of its process in order to minimize contingency risks that may, whether directly or indirectly, affect the environment, the safety and the health of its workers and neighbours
- Establishing goal management programs to improve the environmental, safety and occupational health performance
- Assuring a responsible waste management
- Close monitoring the investigation of incidents occurred with and without injuries
- Demanding contractors the compliance of environmental, safety and occupational health policies within the scope of the company
- Implementing responsible and sustainable principles in all the operations which are not governed by a specific regulatory framework
